

CHRIS EARL AMAR

FULLSTACK WEB DEVELOPER

Motivated full-stack web developer with 2 years of hands-on experience building Back-Office Web Applications, using Laravel, React.js, and TypeScript. Skilled in database design and management with MySQL, delivering efficient, scalable, and reliable backend solutions.

Education

- University of Southeastern Philippines** June 2023
Bachelor of Science in Information Technology – Major in Information Security
Honors: Cum Laude
Relevant Courses: Programming Paradigm, Application Systems Development, Software Engineering, IT Capstone Project, IT Practicum, IT Project Management

Experience

Fullstack Web Developer February 2024 - Present
DecoArts Marketing, Inc./CitiHardware Inc.

- Developed back-office web apps, including Accounting Exception Report Generators using optimized SQL queries on Oracle ERP data for auditing and compliance.
- Built and integrated RESTful APIs for Laravel and React.js applications.
- Maintained and supported a survey tool used by 120+ stores for customer data collection. Enhanced the said system with PDF export, real-time updates, access controls, and advanced filtering.

Personal Projects

Batch-manager (Python)

A Python-based Windows utility (compiled as an executable) for managing and running batch scripts for PHP Artisan commands, including queues and WebSocket servers.

MVP Survey Tool (Laravel, React, Websocket, Material UI)

A minimum viable version of an internal survey platform designed for external-facing branches/stores, featuring real-time updates via WebSockets and a modern UI for efficient data collection and monitoring.
